

TUG BOAT DAVIT CRANES

Made in the USA 

CAPTAIN SERIES

CAPTAIN 2200
572E3

TERN DAVIT CRANES GIVE YOUR TUG A LIFT

VERSATILE

Although any Thern davit crane model can be mounted on your boat, ship or platform, the Captain Series 571 (1500 lb. capacity) and 572 (2200 lb. capacity) are the most popular crane used on tug boats all over the world because they provide extended height, extended reach and smooth 360° rotation while loading supplies and equipment. The Captain series cranes are available in manual or power winch operation. An optional ratchet style screw-jack can be added for precise boom adjustment from 45° to 90°.

AFFORDABLE

The Captain Series cranes provide an affordable option for cargo handling as they can lift and position virtually anything weighing up to 2,200 lbs.

DURABLE

Thern davit cranes are rugged and built to last. The crane comes with standard red enamel finish or optional Epoxy coated for additional protection against corrosion. Custom colors are also available.

WINCH ONE IS FOR YOU?

Depending upon the load weight and dimensions, hook height needed above or below floor level, hook reach required, long or short load lifts, spur gear or worm gear hand or power operated winches, AC/DC or pneumatic, our experts will help you choose the perfect davit and winch combination to handle your project with ease. Let us help make your job faster, safer and easier with the use of the best davit crane available - Made in the USA.

CAPTAIN AND ADMIRAL SERIES DAVIT CRANES

at a **GLANCE**

CAPTAIN 1500

CAPTAIN 2200

ADMIRAL

Designed for permanent installation and smooth rotation, the Captain 1500 provides extended height and reach, and still only requires a 6" concrete floor for installation.

Designed for permanent installation and smooth rotation, the Captain 2200 handles larger loads with extended reach and height. Requires a foundation pad for installation.

The best of all worlds, handling large loads up to 1.5 tons, with an adjustable boom for high lifts and almost 10 feet of reach, and can still be disassembled for relocation.

MODEL	Max Capacity	PORTABLE		MAXIMUM HOOK				ADJUSTABLE BOOM
